RE: Covid-19 ARPA H2O PA Water Supply, Sanitary Sewer, and Storm Water Projects
Fairview Street Water Main Replacement, Mount Joy Authority

Dear Planning Commission,

On December 5, 2022, Mount Joy Borough Authority is requesting your review and support of Mount Joy Authority's application to the Department of Community Economic Development to obtain grant funding under the Covid-19 ARPA H2O PA Program. This application seeks funding for assistance to replace the water main, which runs from Hopewell Street to Lancaster County Career and Tech. Center on Fairview St. Specifically, the improvements proposed include replacing the existing failing water main with a goal to improve the water quality and water volume. The proposed project will allow the Authority to continue to serve its customers with safe and quality drinking water.

An additional Fire Hydrant Assembly is also a part of the proposed project plan. This vital safety mechanism will serve our community well, in the event of an emergency.

This project is consistent with the *Mount Joy Township Regional Strategic Plan*, drafted in January 2010 which states, "Regional initiatives to improve water and sanitary sewer utility infrastructure, increase public safety and emergency services, and enhance the quality of life through community and economic development are just some of the examples of the meaningful collaborations underway here."

If you have any questions, please contact Scott Kapcsos at 717-653-5938.

Respectfully,

A handwritten signature in black ink that reads "Scott J. Kapcsos".

Scott J. Kapcsos
Operations Manager
Mount Joy Borough Authority
